
Gepolis Emerging Market Equity Opportunity A Portfolio

Our Emerging Market Expertise

Pascal Moura spent 16 years running Award-Winning Research Teams at a Global Investment Bank and has also been a successful portfolio manager. After 30 years of experience in equities, investing his own capital, he decided in 2020 that it was time to take along other investors' capital.

Portfolio

The Certificate is invested in a concentrated portfolio of 26 companies, comprising best-in-class businesses across Emerging Markets. The portfolio returned +18.5% in 2024, +21.7% in 2025, and +3.2% year-to-date. Since inception on June 10, 2022, the strategy has delivered a cumulative return of +69.0%, underperforming the MSCI Emerging Markets Index by 14.1% over the same period. The geographic allocation is diversified across China (30%), Asia ex-China (19%), Middle East (13%), Turkey (12%), Latin America (10%), South Africa (3%), and Other regions (13%).

Our Long-Term approach

Benchmark-tracking and quarterly earnings trading is not the philosophy we pursue. Instead, our focus is on companies that can achieve significant earnings growth over the next 5 to 10 years which we Buy and Hold. It is completed by shorter term opportunities when Mr. Market is subject to noise and paranoia around some stocks, sectors, or geographies. Our approach has led to an unaudited +4.3% outperformance per annum versus the MSCI Emerging Market Index over the period 2013-2025. We will work hard to keep that track record going.

Why invest in the Gepolis Emerging Market Equity Opportunity A Portfolio?

3 key reasons to invest in the Gepolis Emerging Market Equity Opportunity A Certificate:

- 1) Pascal Moura has 30 years of experience in Equities, investing his own capital. He has run research teams covering 500 companies in Emerging Markets and has also been a successful portfolio manager.
- 2) Between 1988 and 2024 Emerging Markets outperformed Global Markets due to superior GDP growth and the ingredients for stronger GDP growth in Emerging Markets will in our view last for decades to come (population growth, urbanisation, infrastructure need, income gap ...).
- 3) Emerging Markets are currently attractively valued in relative and absolute terms

Fees and Liquidity

UBS is the Calculation and Paying Agent, Gepolis is the portfolio advisor. The Certificate can be purchased in the secondary market with UBS providing a bid-offer price, as well as the possibility to trade daily (t+1) @ NAV \pm 0.1%. For more information, visit UBS website: <https://keyinvest-ch-en.ubs.com/product/detail/index/isin/CH1190340765>. UBS charges a fee of 0.3% per annum, Gepolis receives a 12.5% performance fee (High Water Mark applies).
